

Introduction

This contingency plan outlines our strategy for students in the event of blended learning/remote learning if required.

Due to all our provisions being AP or special schools then we will be operating to Tier 4 of the DfE COVID-19 guide for local decision makers which states "AP, Special schools and other specialist settings will allow for full-time on-site attendance of all pupils".

This plan is underpinned by moral imperative to equip our students with essential knowledge and skills which can be delivered remotely as well as face to face if there is need to isolate either as an individual, as a class or bubble. It is essential that there is alignment between face to face and remote learning so that if a student needs to self-isolate, they can transition smoothly back into the classroom having followed the same curriculum sequence as their in-school peers. There is a statutory duty to ensure all students who are self-isolating are provided with remote learning materials within the first 24 hours of self-isolation.

The need for equity must be identified prior to any blended learning and support for both parents and students in accessing effective learning will be addressed.

Different provisions will use different remote learning platforms which they have previously used to support learning remotely and therefore students and their families are familiar with the operation and therefore are more likely to access the learning with minimal support.

DfE guidance on remote education: Summary of key points

- Remote education, where needed, is **high quality and aligns as closely as possible with in-school provision**: schools and other settings continue to build their capability to educate pupils remotely, where this is needed.
- Develop remote education so that it is **integrated into school curriculum planning**: remote education may need to be an essential component in the delivery of the school curriculum for some pupils, alongside classroom teaching, or in the case of a local lockdown. All schools are therefore expected to plan to ensure any pupils educated at home for some of the time are **given the support they need to master the curriculum and so make good progress**.
- Where a class, group or small number of pupils need to self-isolate, or there is a local lockdown requiring pupils to remain at home, we expect **schools to have the capacity to offer immediate remote education**. In developing these contingency plans, we expect schools to:
- Use a curriculum sequence that allows access to high-quality online and offline resources and teaching videos, and that is linked to the school's curriculum expectations
- Select the online tools that will be consistently used across the school in order to allow interaction, assessment and feedback
- Provide **printed resources**, such as textbooks and workbooks, for pupils who do not have suitable online access
- Recognise that younger pupils and **some pupils with SEND may not be able to access remote education without adult support**, and so schools should work with families to deliver a broad and ambitious curriculum.
- Set assignments so that pupils have meaningful and ambitious work each day in a number of different subjects
- Provide frequent, clear explanations of new content, delivered by a teacher in the school or through high quality curriculum resources and/or videos

- Gauge how well pupils are progressing through the curriculum, using questions and other suitable tasks and set a clear expectation on how regularly teachers will check work
- Plan a programme that is of equivalent length to the core teaching pupils would receive in school, ideally including daily contact with teachers
- We expect schools to avoid an over-reliance on long-term projects or internet research activities.
- All students will be expected to have remote learning work set for them with primary aged children receiving 3 hours learning per day and secondary aged students receiving 4 hours. Exam group students may well receive extended learning.

Key principles of remote learning highlighted by Education Endowment Fund (2020) and Professor Paul Kirschner (2020):

- Recorded learning is no less effective than live learning
- All students must have access to technology, particularly disadvantaged students
- Different approaches are required for different students
- Stick to essentials do not overload with new materials as students learn less when they are learning remotely at any one time
- Focus on maintaining previously learned subject matter and then scaffold new learning into this
- Learning new things needs to connect to previous learning to be embedded in the long term memory
- By providing detailed examples of what you want them to achieve will aid in their learning
- Providing feedback is essential in remote learning and needs to focus on the work and not effort
- Small bite size chunks of learning is more effective than large projects to create motivation and focus

To enable teaching and learning to continue as effectively as possible during the need for remote learning:

At Bromley Beacon Academy, Orpington

- All students will be able to access their work through Showbie. Work is differentiated to the needs of the individual. Students will have their work marked daily and comments uploaded by their class teacher.
- We will be using the learning platform Showbie which is accessible as an app or online. Green class ONLY will continue to use Class Dojo
- All students working remotely will broadly be taught the same curriculum as they would in school, following blended learning. Work will be individualised to the needs of the student.
- We will make daily/frequent contact (or agreed contact) with parents/carers via telephone and/or our remote learning platform. This could be in the form of a phone call, text or typed message
- We will not use live lessons but provide frequent and clear explanations of new content using high quality resources and the offer of a zoom call from two members of staff to support learning.
- Twice weekly a PHSE video will be uploaded by the class team to support learning.
- Monitor the phone logs to ensure families are called daily and any issues are followed up by the appropriate person/ team
- Monitor the engagement of pupils learning on daily basis and report any concerns so these can then be followed up ASAP
- Weekly assemblies key themes

| | Phonics learning | |
|--------------------------------|---|-----|
| | Clear log on and log off times for day for both students and staff | |
| | Concise instruction booklet for accessing online platforms | |
| Our staff will: | We will provide a weekly timetable for pupils | |
| | Set daily learning activities and tasks on the learning platform Showbie or Class Dojo for Green class | |
| | Provide feedback to pupils twice a week whilst they are working at home | |
| | Contact and talk to each pupil on a daily (or agreed) basis | |
| Our pupils/students will be | Log on to the learning platform and complete the welcome task | |
| expected to: | Watch all of the learning videos/join learning sessions and/or PowerPoints, taking a full and active part in them | |
| • | Complete the learning set by their teacher each day and upload their learning as requested by the teacher | |
| | Talk with their friends each day through safe streams used by the school if appropriate | |
| | Use online resources such as My Maths, Reading Eggs, Maths Prodigy, Timetable Rockstars, BBC Bitesize and any other | |
| | resources provided by the school | |
| Parents/Carers are responsible | Set a clear routine with each child using the timetable and the daily learning set | |
| for: | Read all communications that come out from the school to ensure they are fully aware and up to date with news. | |
| | Support their children to complete all of the learning set | |
| | Liaise with school staff and seek support on behalf of their child when needed, with class teacher via email | |
| | Ensure courtesy and politeness to any member of staff within any communication | |
| | Provide access to the learning offered for their children | |
| | Support their children by assisting with uploading work through the learning portal | |
| | Support at home may be varied and should be taken into account in the activities/ work set for each child. | |
| How to access work | Digital audit has been carried out for all provisions and all students have been allocated a digital device by way of: | |
| | DfE Social worker allocation | |
| | DfE Year 3 to Year 11 Disadvantage allocation | |
| | Previously given Kindles | |
| | • The school has an allocation of laptops and dongles that students will be allocated as needed. These will be expected to be | |
| | returned to the school following a period of isolation so that they can be used for other students | |
| | • All sites will be working from specific learning platforms and work will be uploaded on daily basis onto Showbie. Work can b | e |
| | marked and comments made by the class team daily and students will be able to respond to the comments. At the end of | |
| | each week, work will be archived and new work will be set for the following week. | |
| | • This will be quality assured by the teaching and learning lead for each provision to ensure acceptable standard of work is be provided on daily basis | ing |
| | p. c. acity oddio | |

| | All staff trained to access the learning platforms to a high level of competence Parents/ carers and students will have specific staff emails to contact in regard to concerns about work and then schools will |
|---|---|
| | contact parents/ carers and students to ensure there is clarity and work can be carried out moving forward. |
| | • We will also provide learning packs for students who prefer to work from hard copies rather than from digital devices in the form of the same worksheets and lessons that are being provided through the blended learning. This will be a last resort as students have been provided with laptops and dongles, so that they can access the work through Showbie. Green Class will be provided with a weekly learning pack that links to the blended learning and the thematic curriculum. |
| Vulnerable and Key Workers | In light of a self-isolation, class or bubble closure, the school will be open at all times for Key Worker children and vulnerable children. They will be placed into specific Bubbles with 2 consistent members of staff. They will complete all remote learning set by their class teachers on iPads provided by the school. When self-isolation, class or bubble closure is complete then the |
| Communication | vulnerable/ key worker children will return to their classes accordingly. There will be an expectation of daily (or agreed frequency) phone calls to all students by key staff |
| Communication | Email addresses of key staff will be provided to all parents/ carers |
| | Students will be able to communicate with teachers and support staff via learning platforms and also using work school emails |
| | Some students will be contacted by staff on Zoom with always two staff attending such contact |
| | Parents/ carers will be provided with emergency numbers for SLT and welfare officers |
| Teacher Workload | Teacher workload must be manageable with clear expectations of timelines for work to be returned. SLT must be very aware of the balance with face to face and remote working for different children at any one time and other staff should be used to support teaching staff to upload and support where necessary to ensure all staff have appropriate work/life balance during any partial/ full lockdown. |
| Therapeutic Support for Students and Staff | We will continue to provide Therapeutic support to pupils, parents/carers and school staff (at all levels) using online platforms e.g. zoom, where available or through phone calls when necessary. |
| | Face to face therapeutic support will be made available only for vulnerable pupils and staff attending during lockdown. |
| Safeguarding Measures | By using the learning platform Showbie or Class Dojo (Green Class), we are conforming to GDPR regulations in terms of data protection and sharing of data. Access to learning platform Showbie or Class Dojo (Green Class) is restricted to individual users which means families are only able to access their child's accounts while at home. Any work added to a child's account should be their own, and examples of |
| | peers work should only be shared with the permission of the parent of that child and should celebrate accomplishment or effort alike. |
| | • If at any time safeguarding concerns are raised when a child is online then normal safeguarding processes will be followed by the member of staff working with the child. |
